DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2, 4-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the closest prior art Anzai (US 6,009,242) fails to show or fairly suggest an image forming device comprising: means, wherein the compression determining means employs a reference value indicative of the data transferring performance from the memory means to the transfer means, the reference value being based on the following formula: $L_r = BI / (Bg * De)$.

Regarding claims 2, 4-15, claims 2, 4-15 are allowable due to dependence from claim 1.

Regarding claim 16, claim 16 is the method claim of device claim 1. Therefore, method claim 16 is allowed for the reason given in device claim 1.

Regarding claim 17, the closest prior art Anzai (US 6,009,242) fails to show or fairly suggest an image forming device comprising:

the compression determining means employs a reference value indicative of the data transferring performance from the memory means to the transfer means,

wherein the reference value represents a fixed length equal to or smaller than a value of the greatest image forming width provided of the printing engine,

wherein the compression determining means determines whether to compress the image data if greatest raster length in each page of the image data exceeds a predetermined percentage value of the largest image forming width provided of the printing engine.

Regarding claims 18-20, claims 18-20 are allowable due to dependence from claim 17.

Regarding claims 21-24, claims 21-24 are the method claims of device claims 17-20, respectively. Therefore, method claims 21-24 are allowed for the reason given in device claims 17-20.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
